About Dahlia:

I have been a full time organizer for 6 years, putting my innate penchant for neatness to good use. I spent 10 years serving the public at NYC Administration for Children's Services working with children and families. I am a mother of "three under three" so I have a keen understanding of the challenges and benefits of keeping a tidy, organized and efficient home. I employ a collaborative work style and nonjudgemental attitude. My clients are afforded the highest levels of discretion and confidentiality.
